

Meritor Part

Meritor Part - The Meritor Company is a leading global dealer established upon 100 years of tradition of service and quality. Meritor specializes in integrated systems along with a range of modules and parts to the original machinery makers and aftermarket equipment within the industrial and transportation sectors.

Meritor values the wishes of their customers to ensure their success while priding itself in the company's unique energy and believes this output of energy to be their aggressive advantage in their worldwide operations. Meritor starts with a culture which values diversity of individuals and their broad thought processes. Operating in 19 countries and employing over 11,200 people, Meritor encourages collaboration and innovation amongst a team of experienced professionals.

By only hiring future focused individuals, Meritor strongly believes these top-caliber individuals will be able to rapidly get used to to changing environments and exhibit the commitment and performance needed in order to achieve results in the competitive materials handling business. The company empowers their teams to make sound business decisions in order to improve the overall success of the business. In return, Meritor provides their employees different possibilities for professional and personal growth.

The Advanced Engineering team is on the forefront of components and system engineering. This consists of axles, drivelines, suspension and braking systems utilized for heavy duty and medium trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the entire Asia Pacific region. This particular team is even responsible for supporting the needs of all their international engineering workers.

The Quality team at Meritor is a customer-focused and dynamic group who is dedicated to ensuring optimum growth at their aftermarket distribution facilities and production plant which are situated on 5 continents and in 19 countries.

They have their supplier network that is particularly located to support the growth of the business. Each and every regional team has globally supported initiatives, quality systems and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a fact-based, data-driven method to decision making within each aspect of the trade. The DFSS or Design for Six Sigma ensures product reliability within every region. The team is even comprised of transactional Green Belts who use Six Sigma tools to business processes and apply lean techniques.
