

Spreader Bars for Forklift

Spreader Bar for Forklift - ELME has been proudly operating since nineteen seventy four, becoming the largest independent spreader maker all over the globe. They are a dedicated producer of spreaders for many different applications like for instance the trailers, handling of containers and swap bodies.

ELME presently employs over 125 workers with all engineering is done in-house by way of using all the newest FEM tools and CAD systems. Their spreaders are supplied to reach quayside, ship-to-shore cranes, stackers, straddle carriers, lift trucks and gantry across the globe.

The ELME product series offers spreaders intended for different container and trailer handling operations. Some of their inventory include: Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift trucks and a huge variety of attachments.

Production and manufacturing of ELME products are established in highly automated purpose built factory. In the year 2008, they made one thousand one hundred fifty spreaders by utilizing quality parts to ensure reliability and excellent standards. Major characteristics of ELME consist of design simplicity, market response and innovative modular spreader concept.
